Mr. Dennis Smith
Lost In The 50's Custom Car Club

Dear Dennis,

Eagle One is delighted to inform you that your car club, Lost In The 50's, has been selected the winner of the 2012 Eagle One Golden Rule Award for the most outstanding community service program in the Eastern Region during 2011.

For the past 19 years the Golden Rule Award has recognized and rewarded car clubs whose members have demonstrated exceptional involvement in, and support of, community and charitable causes.

Your club is a perfect example of such service and dedication. Eagle One also commends your club for your active involvement in the preservation and restoration of one of our nation's greatest historical heritages, the automobile.

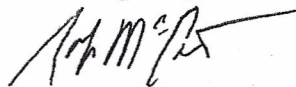

You may be interested to know the Grand Prize winner was the Western region winner, the Golden Hills Mustang Club of Davis, California. The club was selected for their Pony Express to Afghanistan. Each month the club shipped more than 75 pounds of food, toiletries, magazines and other necessities to U.S. Troops overseas.

With your award, a check for \$500 will be donated to a charity of your choice. An award plaque is being custom made and we believe that by displaying it with pride, the dedication of your members will be reflected.

Your club will also be receiving a generous supply of our new Eagle One EviroShine eco-friendly appearance care products, as well as Valvoline motor oil, for fund-raising at car shows and other events.

Once again, congratulations to you and your members for your distinguished service to your community. Your club has proven once again there is more to car clubs than cars.

Best Regards,

Rob McCarter
