**Christina Rice** 443.944.3686

## President's Message

Guess it's safe to say that summer has arrived! It's hot on the lot! It hasn't stop the crowds from coming though! We've been close to 400 cars more than once. Now that I said that, we will be needing some extra help around the lot, as our regulars go on vacation or just take a break from volunteering. Even if it's just an hour, we appreciate it. You can contact me at 410-255-6978. We need help setting up/taking down/gate keeping etc. Pretty sure you'll like it cause you get to see all the cars and stay in one place.

We had a nice group show up for the Solomon's Island cruise. We all enjoyed the cruise and good company. Check out the pictures here and on Facebook. Curtis Hedrick, Fran Pierzchalski and Ronnie Cambell joined us this trip. I'm hoping to get some more folks to cruise with us next time. Our next cruise will be to the Westminster City Park, for a music tribute to the Beach Boys. We went last year and had a FUN time. Bring a chair they have drinks and Hot Dogs. They need a head count so sign up for this one with Ginny.

The annual 50/50 tickets are being printed and should be at the August meeting. I'm counting on a sell out this year😊. We could use it with all these rain days.

### Dates to Remember:

July 9th - Westminster Cruise

August 13th - Friendly Farms Cruise

August 20th - Bruster's Glen Burnie - Car Hop Night

*We can draw lessons from the past, but we can not live in it.  
That's why all organizations need new leaders.*

A always, pray for those in Harms Way Military, Police and Fireman

*Jack Stephan, Club President*

<https://www.facebook.com/lostn50s>

## NEXT CLUB MEETING

**Tuesday, August 1, 2017 at 7:30 PM**

Harundale Presbyterian Church | 1020 Eastway  
Glen Burnie, MD

## JACK'S TRIVIA

- 1) Why are tires black?
- 2) Why do tires have grooves?
- 3) How big is the worlds largest tire?

*Jack will answer these at the next meeting!*

## NEW AUXILIARY MEMBERS

## NEW CLUB MEMBERS

## GET WELL

Joyce Hedrick

2012 Honda Civic Si --53871 miles -New Tires (less than 200 miles on them) Motor & Transmission great--Right Rear Damage - Non smoker -Clean, be repaired or used for parts--Asking 5500.00. Contact Ronnie 443-867-5180

## IN MEMORIAM

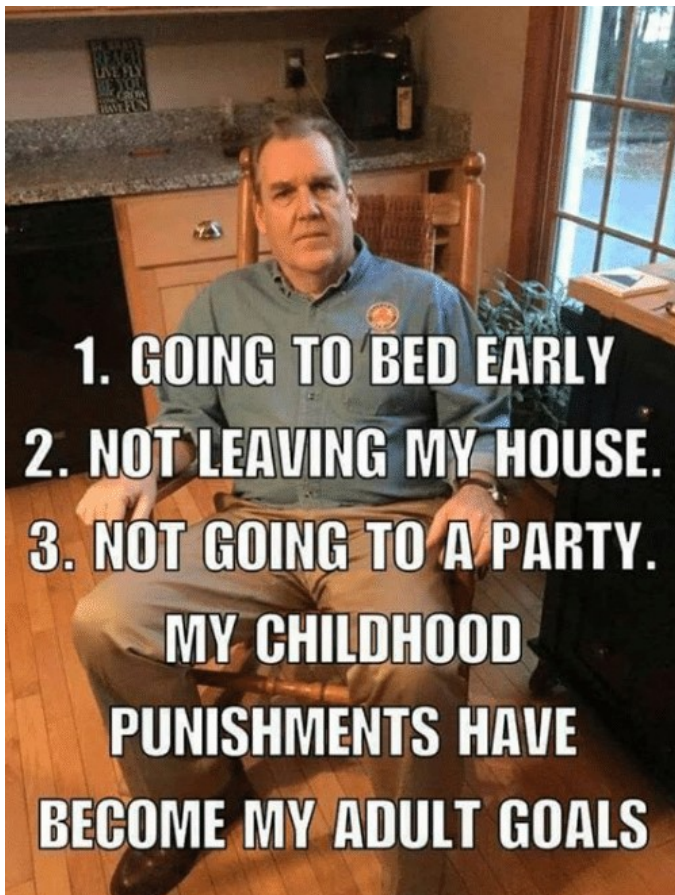

## SOLOMONS ISLAND CRUISE 6/11/17

## SOME HUMOR

## NASCAR HALL OF FAME

Here's a trip you might want to put on you bucket list. The Nascar Hall Of Fame in Charlotte, NC. There are four floors of memories. We spent 3 hours there and didn't see everything. These pictures show the size and beauty of this place. Very nicely done. Besides the cars on loan, they change them out regularly so its always different. Drivers stop by occasionally and meet the crowd. There are engines on display and other personal items. There are individual stations with ear sets and videos of drivers past and present, with stories of their lives and wins/loses.

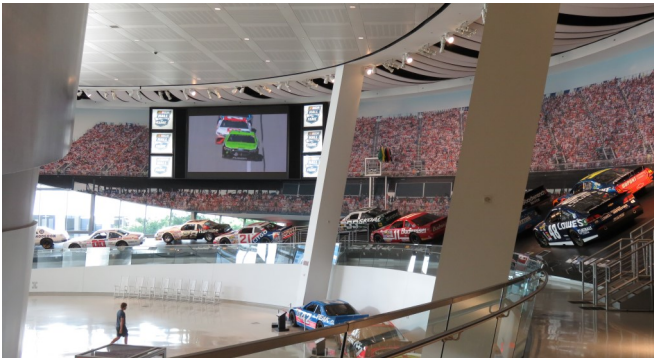

There is even an area where fans can compete jacking up cars, changing tires and using the big gas can (empty of course)!

Take a look at who we found on the wall of drivers. Johnny Roberts! Yes, that's Maryland's Johnny Roberts. The only Nascar driver from Maryland.

When you finish up there, you can cruise to the track. We had some fun times on that track ourselves. Each of our cars have at least 3 laps on the Charlotte racetrack.

That's it. Enjoy!

Jack & Ginny

## The Story Of This Willys

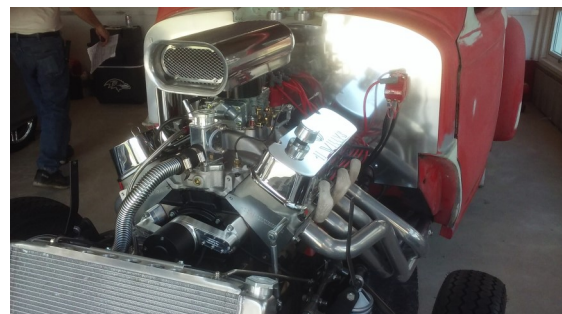

By Walt Miller

It all started when I was 12 years old and I was looking through a Hot Rod Magazine, there was a pair of Willys drag racing at a track in California. I decided that some day I would like to own a Willys. Well, 41 years later I was allowed to refinance our home (wife made it happen) to get a turn key 41 Willys that was at a car show in South Carolina. That car was totaled 5 years later and I quickly found out that the car I had was under insured. I searched online and found a lot of cars that were either way more money than I had or not nearly as good as I had. I was told about this car by some friends, the owner was retiring and moving to another state, so he wanted to sell his Willys project as well as his turn key coupe (I think it was a 32). I bought the project because only another Willys would do and I have a very talented brother, Bryan. We had to rewire the car, get a transmission and fuel system. The system that came with the car was awesome but issues dictated to go with a carbureted engine and a nice lumpy cam. While the big block was very impressive, it had a heating issue which the previous owner also experienced. During most of the 1st eight years I owned the car, very few people ever saw it, as it may have been driven maybe 12 miles for the entire time. It became time for me to retire, and the Willys was sitting in the garage looking to get a new cooling system and a suspension rebuild. I'll mention that my wife & I have 6 successful adult kids and they decided that if my brother was in, they would "OVERHAUL" me. They took the Willys to my brothers warehouse for what I thought was to be a radiator replace (which there was a lot more to it then that) and a suspension rebuild. I was getting a little worried as I was not invited to help out with the rebuild. My retirement date was in mid January this year and my brother and family (all 6 kids were there) said I should stop by his house for a celebratory drink. One of my sons opened the garage door and my brother drove the Willys out, sounding better then ever. He opened the hood, and I noticed that they changed the heads, then I saw the carb and intake were changed and then I realized that the engine was also changed. My brother told me that my kids said put a new engine in the car with every thing that goes with it (they decided on a ZZ454) and that money would be no object. My brother said that this is the best kind of build, just say he needed something and magically it showed up. The car will come apart one more time in July for paint. Still a ways to go, but I've really enjoyed it more the last 2 months then you can believe.

# RECIPE OF THE MONTH

## RED BEANS, RICE, AND SAUSAGE

### Ingredients:

Rice- measured according to package directions, usually  $\frac{1}{4}$  cup per person

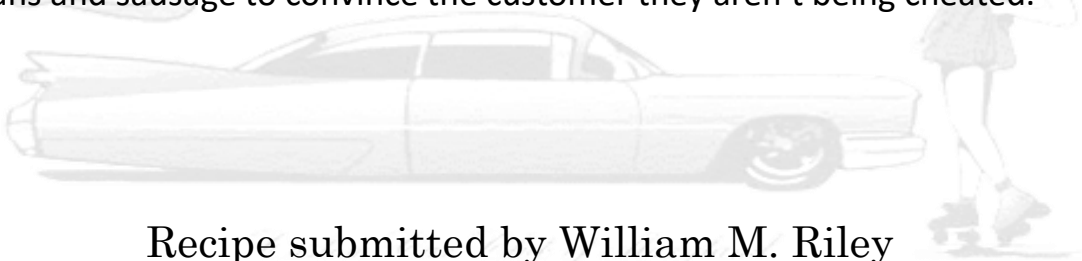

Water- measured according to package directions for the rice, usually 1-1/2 times the amount of dry rice

1 Can of dark red kidney beans

1 Link of Andouille sausage

Cooking for one, I measure  $\frac{1}{4}$  cup of rice into the rice cooker, and add maybe  $\frac{1}{3}$  cup of water (the liquid from the canned beans reduces the amount of water needed). I then add one can of red kidney beans, and cut up one link of Andouille sausage, all directly into the rice cooker. Put on the lid, plug it in, push the "start" button, and walk away. This rice cooker is automatic, and will shut itself off when ready. Your machine may work differently. So far, putting all the ingredients directly into the rice cooker doesn't seem to damage it.

I could add more rice based on the number of servings desired, without increasing the amount of beans or sausage, up to the capacity of the cooker. The single serving version above is a little heavy on the beans and sausage. Most restaurant servings have just enough beans and sausage to convince the customer they aren't being cheated.

Recipe submitted by William M. Riley

***If you have a recipe you would like to submit for inclusion in the newsletter, please send it to Ronnie Campbell at [HOUCHIGOUCI@msn.com](mailto:HOUCHIGOUCI@msn.com)***
